The promotion of Mr. C. A. Wickersben from the superintendency of the Ala-bama Great Southern to the presidency of the Atlanta, West Point and Western Gallway, of Alabama, has caused many promotions and a small sized shake-up. Effective November 12th, General Mana-

ger Frank S. Gannon announces the fol-lowing appointments: Mr. A. J. Frazer, now superintendent Elimingham Division of the Southern Railway, becomes superintendent of the Ala-banna Great Southern, with headquarters

THE SOUTHERN'S EARNINGS.

The Daily Stockholder (New York) in speaking of the Southern Railway, says:
"If there exists any doubt as to the continued ability of the Southern Railway's territory to firmish that system with traffic and earnings, current reports may be refled upon to dissipate it. The

October exhibit of gross is a noteworthy one, not alone for the gain of \$26,792 shown, but because there was a very large total to compare with, that month in 1899 having been good for an increase of \$355.050. Then looking at results for the four months of the new fiscal year, it is seen that for this period there

40 in this period there has been a gain of \$728.-639 in the gross total following no less a gain than \$1,126,184 a year ago. The curmind in considering the course of net carn-ings. Lest year they showed a gain of \$400,000 for the September quarter, and this level has been maintained and slightly improved upon by a further gain of \$34,544.

"The latter is, of course, a small benefit to arise from nearly \$500,000 added to gross earnings in that period, and may be taken to reflect the tendency of expenses to mount up under the influence of heavier prices for materials and supplies. At the same time the fact must not be overlooked that in the fiscal year 1900 the company samed nearly three million dellars for its stock, and paid out only \$1,800,000, and that its expenses for maintenance have on on a high level, increasing in tha period 18.17 per cent, for road and 14.37 for equipment, while revenues increased 12.65 per cent. The company puts out 70 per cent. of its gross receipts in operating, and clearly could have saved more than it did to profits, but the polley of property im-provements out of earnings is one which is being carefully carried out, and its ul-timate effects can only be such as are of a gratifying nature to security holders. The equity of owners is being constantly increased. We look for this to be recogmized in the quotations for the preferred stock, which should sell nearer 70 than 60, in order to register 5s full value. The common for a long pull, should be bought with confidence around current figures.

ASHLAND, VA., Nov. 12.—Richmond College won the game of football played here this afternoon with the Randolph-Macon College team by a score of eleven to six. The game was hard fought, and the vetors earned everything they got.

Bandolph-Macon's hopes were greatly raised at the beginning of the game by the breaking through the line by Wilson, who, after a long run, made a touchdown. After kicking goal there was no more scoring of either team in the first half. scoring of either team in the first half.

In the last half the visitors got together in better snape. After a desperate effort they finally tied the score. Then it was the enthusiasm of the respective rooters of both teams was at its height. Randoiph-Macon secured the ball again and Haden made a bold effort for a touch-cown, but was finally tackled within ten yards of goal. He afterward attempted to kick goal, but the ball went a yard wide of its mark. This ended Randolph-Macon's chances for the game, as White, in the next play, escaped tackle and made a pretty run for goal. This touchdown completed the score.

Following is the line up: for New York and a northern tour. Upon their return, in about a week, they will be at home to their friends at their apartments, No. 102 East Clay Street.
